ON AGRICULTURAL GREENHOUSE GASES

8th Livestock Research Group meeting

19-20 February 2016

**BRINGING IT BACK
TOGETHER:
The LRG in 2016**

LRG meeting 2017 and 2018

- Co-chairs proposal
 - April 2017: Washington DC, USA
 - 2018: Vietnam

Key actions for the LRG in 2016:

- Contribute to development of GRA funding mechanism/IRC
- Explore possibility of linking the LRG to the Animal Health IRC – resourcing
- Networks to finalise their ideas for priority actions
- Raise the visibility of the networks, and broader LRG
- Explore the potential for the LRG/GRA as a repository of meta data

Partnerships

- Working with the World Bank on the Investor Guide
- Engaging in CCAFS priority areas, especially MRV (with FAO)
- CCAC Phase 2, working with FAO, CCAFS and World Bank

Capability building

- Remains a critical area for LRG activities, with many demands for assistance
- Supporting countries to move towards Tier 2
- Strengthening MRV systems
- Ongoing strengthening of research capacity – including resources for ongoing assistance
- Inventory of existing capability building materials

Other actions

- Continue exploring cooperation with the IRG
- Foster Mediterranean regional network
- Work with SAI on joint seminars
- Science conference feedback and preparation
