

Country Report - URUGUAY

Fernando A. LATTANZI – INIA Uruguay

Projects – running

AgroGEI (**INIA**) – V. Ciganda/M.V. Pravia

SOC in irrigated crops (**ANDE**) – S. Arana/G. Piñeiro

Soil Use Plans (**MGAP**)

agriculture (erosion threshold): 5-years review

dairy (erosion and available P content threshold)

Projects - approved

SOC in Natural grasslands:

impact of intensification (ANII) – F. Lattanzi/G. Piñeiro

impact of inclusion of legumes (Procisur/Fontagro/GRA) – O. Constantini/F. Lattanzi

impact of degradation (GEF) – W. Ohyantcabal/G. Piñeiro

SOC in crop/pasture integrated systems (Long-Term Experiments)

irrigated rice (ANII – RR) – J. Terra

non-irrigated crops (not funded)

Independent group on biogeochemistry of C and N (ANII – MPI) – M.V. Pravia

Proposals

FACE-ERANET *(submitted)*

SOC monitoring at regional/country scales – C. Headley/F. Lattanzi

FONTAGRO / GRA *(in preparation)*

SOC sequestration in LATAC – F. Lattanzi/G. Piñeiro

Inputs from GRA/IRG

Networking (informal):
