

GLOBAL RESEARCH ALLIANCE

ON AGRICULTURAL GREENHOUSE GASES

Livestock Research Group meeting

9-10 August 2019

Meeting overview

What are we trying to achieve?

- Review LRG achievements, progress and changes since the last meeting
- Assess and discuss the implications of recent global agreements and other developments for the LRG and its activities
- Evaluate and discuss how we ensure the LRG's contribution to country requirements and the SDGs, and
- How we make sure that agreement on the way forward is informed by the lessons from the past 10 years.

How will we go about it?

Mix of

- Plenary presentations
- Panel discussions
- Working groups
- Plenary discussions for agreement on action points and
- **Your active participation!**

How will we go about it?

Today... a VERY full day:

- Quick look at international developments relevant to the LRG
- Panel discussion on the changing context of livestock sector production and consumption and the implications for the LRG
- Working groups – Making a difference towards 2030
- Updates on:
 - LRG-related Capacity building activities
 - LRG Networks
 - Circularity taskforce and
 - Role and status of GRA flagships

How will we go about it?

Tomorrow... another intense day!:

- Panel discussion on funding and partnership
- Working groups on:
 - Learning from the past ten years
 - Visioning the next ten years
- Next steps and next LRG meeting

Any questions?
