

Contribution to Croplands Research Group activities

- *Input to MAGGnet database*
- *Participated in Conservation Ag network activities*
- *Participated in Peatland Man network activities*

Opportunities to participate in CRG activities

- *Participate in networks on conservation agriculture, nutrient management, peatland management.*
- *Activities on C-N modelling (we are active via the Integrative Research Group)*

Opportunities, future actions and funding

- *New Danish climate programme just started. This includes projects on:*
 - *Rotational grassland and GHG emissions*
 - *Cover crops and GHG emissions*
 - *Wetlands as a measure to mitigate emissions*
 - *Nitrification inhibitors – impact on N₂O emissions*
- *New large national programme to be started in 2020. DK government has a goal of 70% reduction in GHG emissions by 2030*
- *EJP SOIL*
 - *Large EU framework project on climate smart sustainable soil management*
