

## Durba Kashyap, India

### CLIFF-GRADS Project:

Evaluating effects of increased use of animal manure in horticulture on agricultural greenhouse gas emissions.

### Home University and PhD:

National Institute of Food Technology and Entrepreneurship and Management (NIFTEM), India. Farm survey based assessment of carbon and water footprint of rice and wheat crop production in Punjab, India.

### Host Institute and Supervisor:

Wageningen Livestock Research, Netherlands, Marion de Vries.

### About me:

I love to travel and experience different cultures. I first witnessed the impact of climate change in the Trans Himalayan grasslands of Sikkim (India), and realised our vulnerability and our responsibility. Since, then I have been interested in working towards climate change impact, adaptation and mitigation.

### My favorite quote:

*"It is only with the heart that one can see rightly; what is essential is invisible to the eye"*
