

## Tsegay Teklebrhan Gebremariam, Ethiopia

### CLIFF-GRADS Project:

Ranking forage-based diets for ruminant methane and nitrogen emissions.

### Home University and PhD:

University of Chinese Academy of Sciences, Greenhouse gas emissions (ecology).

### Host Institute and Supervisor:

AgResearch limited, New Zealand, Arjan Jonker.

### About me:

I am interested in working with people from different horizons of experience, cultures and who have different knowledge in order to gain a better understanding of nature. I believe that networking can create a platform in exchanging new ideas and techniques to solve the common problems for a common goal.

### My favorite quote:

*“Reality: A person who never made a mistake never tried anything new”*
