

## Wendy Mercedes Ramírez Suárez, Cuba

### CLIFF-GRADS Project:

Technologies and practices to increase C sequestration in integrated crop-livestock system on a humid tropical savannah.

### Home University and PhD:

University of Matanzas, Potential for soil carbon sequestration of diverse agricultural practices in different land uses.

### Host Institute and Supervisor:

Embrapa Rice and Beans, San Antonio de Goiás, Dr. Beata Eموke Madari.

### About me:

I love being in touch with nature as well as understanding and contributing to the proper functioning of ecosystems. I would like to contribute and work for the sustainability of a world capable of conserving its resources and peace. I love friendship and dance.

### My favorite quote:

*"If you do not dream, you will never find what is beyond your dreams"*
