

Abera Biratu, Ethiopia

CLIFF-GRADS Project:

Modelling and predicting SOC sequestration potentials of Sustainable Land Management Program (SLMP) watersheds in Ethiopia.

Home University and PhD:

Haramaya University, Ethiopia; Climate smart agriculture and biodiversity conservation.

Host Institute and Supervisor:

Alliance of Bioversity International – International Centre for Tropical Agriculture (CIAT), Ethiopia; Dr Lulseged Desta.

About me:

I am enthusiastic to be a well-equipped researcher with interdisciplinary and integrated science in understanding landscape dynamics, watershed mosaic, collective action challenges, soil fertility gradients and land management barriers at farm and landscape scales. I am passionate about working with international senior scientists and teams. A friendly, open hearted and accommodating personality gives me deep impressions.

My favourite quote:

“We need to do more and do it better if we all want a world without hunger” - Primitiva Andrea.

RESEARCH PROGRAM ON
**Climate Change,
Agriculture and
Food Security**
