

## Azamat Suleymanov, Russia

### CLIFF-GRADS Project:

Improved soil carbon mapping in sub-Saharan Africa to support soil fertility and climate mitigation studies.

### Home University and PhD:

Ufa Institute of Biology, Ufa Federal Research Centre, Russian Academy of Sciences; Soil degradation processes and their reflection on space images in various agro-ecosystems of the South Ural region (Russia).

### Host Institute and Supervisor:

ISRIC, World Soil Information, Netherlands; Dr. G.B.M. Heuvelink.

### About me:

I am happy to be doing what I love - science. I am doing research in soil degradation, remote sensing, cartography and geostatistics. I enjoy traveling and working with colleagues from different places. During my spare time I like to play football, chess, hiking and bike riding.

### My favourite quote:

*"If you have the will, then everything is achievable."*

RESEARCH PROGRAM ON  
**Climate Change,  
Agriculture and  
Food Security**
