

Eyerus Muleta Fatula, Ethiopia

CLIFF-GRADS Project:

Development of nitrogen-urea-milk content as an indicator of temporal and spatial distribution of N₂O emissions.

Home University and PhD:

Jimma University, Ethiopia; Animal nutrition.

Host Institute and Supervisor:

National Institute of Agricultural Research (INIA), Uruguay;
Dr Veronica Solange Ciganda.

About me:

Cultural and social value sharing is my amiable in which travel gives such incredible opportunity. A new place and new knowledge from this diverse experience will become my new life experience. Playing with my gorgeous kids is refreshing and energizing for me in my spare time.

We are in a changing climate, and need a milestone in reducing and mitigating the impact on the future. My passionate, Nutrient management is a key in controlling the extravagance of livestock farming with the concept of cost and environmental impact through its management.

My favourite quote:

"The harder you work for something, the greater you'll feel when you achieve it." - my mother

RESEARCH PROGRAM ON
**Climate Change,
Agriculture and
Food Security**
