

Kpanté Koutando, Togo

CLIFF-GRADS Project:

Nitrous oxide (N₂O) mitigation from agriculturally managed organic soils.

Home University and PhD:

Ege University; Climate change and land suitability analysis.

Host Institute and Supervisor:

Climate and Agriculture Group, Agroscope, Switzerland;
Dr. Jens Leifeld.

About me:

Passionate about research on issues related to agriculture and climate change, I am one of the people who think that it is never too late to do the right thing. I would like to make my contribution to sustainable agriculture. Moreover, I am highly interested in learning new things. Very sociable, dynamic and I adapt quickly to all situations.

My favourite quote:

"The best way to predict the future is to invent it." - Alan Kay

RESEARCH PROGRAM ON
**Climate Change,
Agriculture and
Food Security**
