

Manuel Camilo Valencia Molina, Colombia

CLIFF-GRADS Project:

Nitrogen management to mitigate nitrous oxide (N₂O) emissions in Sugarcane.

Home University and PhD:

University of the Plains, Colombia; Doctorate in agricultural sciences.

Host Institute and Supervisor:

Salta Experimental Station, National Institute of Agricultural Technology (EEA Salta INTA), Argentina; Dr. Martín M. Acreche and Dr. Jorge Chalco Vera.

About me:

I am the product of my dad's example, my mom's effort, my brother's support, my wife's company, the love of my children and the tutoring of my teachers. I consider myself happy, I like to talk with people who think differently from me.

My favourite quote:

"The eyes do not see what the mind does not know" - Anonymous

RESEARCH PROGRAM ON
**Climate Change,
Agriculture and
Food Security**
