

## Solomon Amakelew Ayele, Ethiopia

### CLIFF-GRADS Project:

Defining the most appropriate dairy cattle genetics for high altitude Andean small-holder systems: Reducing methane (CH<sub>4</sub>) emission intensity through improved feed efficiencies and rumen function management.

### Home University and PhD:

Çukurova University, Turkey; Animal Science (Biometry and Genetics).

### Host Institute and Supervisor:

Veterinary Institute for Tropical and Altitude Research (IVITA), Peru; Dr. Cesar Pinares.

### About me:

I am a wondrous person to know and with which to work. I have a patient and friendly demeanour which helps me not only when working with my peers but also in positions where I direct others. I never get frustrated with another person. I am generous with my knowledge and time. I love to read interesting and knowledgeable literature especially scientific books.

### My favourite quote:

*"Two things define you: your patience when you have nothing and your attitude when you have everything."*

RESEARCH PROGRAM ON  
**Climate Change,  
Agriculture and  
Food Security**
