FAO and the Enhanced transparency framework

How does FAO address Transparency?

Mirella Salvatore

Climate Change Officer

Office of Climate Change, Biodiversity and Environment

FAO

2-3 June 2021

How does FAO address Transparency?

CBIT-AFOLU Programme

1. Strengthening **country capacity** in terms of Institutional Arrangements, MRV and M&E
2. Developing **ETF-enhanced Global Products** addressing country needs
3. Building **knowledge sharing** and peer-to-peer exchange
4. Enhancing **coordination** among on-going Transparency Initiatives and other GEF CBIT implementing agencies

How does FAO address Transparency?

CBIT-AFOLU Programme

Country capacity

- One-to-one mentoring
- Webinar series
- Trainings
- Regional workshops

20+ targeted countries
90+ countries engaged

ETF-enhanced Global Products

- Tools and methodologies
- E-learning series on ETF and GHGIs

15+ tools reviewed
10+ new tools developed and under development

Knowledge sharing

- FAO's ETF website
- Transparency in the agriculture and land use sectors network
- Roster of transparency practitioners

400+ network members
350+ interested in joining the roster

Coordination

- Continued partnerships
- Joint products and events
- Dissemination of knowledge and information

10+ global partners
25+ workshops and trainings

Global products & tools for enhanced transparency

Tools Modeling framework Guide Template Study
Excel-based tools Datasets Maps Training package Methodology

Around 20 tools reviewed

5 new tools developed

Around 10 tools revised/focused on ETF

8 new tools under development

Highlights from recent and upcoming tools

Institutional arrangements products

AFOLU data template
Revised institutional arrangements US EPA template
Biennial Transparency Report guidance and roadmap

MRV and M&E products

MRV guidance for mitigation actions in the AFOLU sector
Land representation tool
Adaptation M&E training package
Loss and damage evaluation

Nationally determined contributions products

NDC-AFOLU Navigator
Nationally Determined Contribution Tracking Tool
Nationally Determined Contribution Expert Tool (NEXT)

For more recommended tools and resources, check out [this page](#)

E-learning series

1. [Preparing a greenhouse gas inventory under the Enhanced Transparency Framework](#)
2. [The national greenhouse gas inventory for land use](#)
3. [The national greenhouse gas inventory for agriculture](#)
4. *Assessing uncertainty: a focus on land use*
5. *Estimation of methane emissions from livestock enteric fermentation at Tier 2 level*

Webinar Series to explore MPGs

- Addressing transparency in the agriculture and land use sectors
- The role of institutional arrangements in the Enhanced Transparency Framework
- Quality Assurance (QA) of the National GHG Inventory Management System and National GHG Inventories
- Are you ready to make your GHG inventory transparent?

Capacity building in the COVID era.... and beyond

How do we build capacity when it is almost impossible to travel and meet in person?

Advantages of building a virtual network

Transparency in agriculture and land use sectors network

- open to everyone
- inclusive
- friendly
- experiences
- lessons learned
- best practices
- E-discussions/Newsletters
- LinkedIn
- Roster of practitioners
