

GLOBAL RESEARCH ALLIANCE

ON AGRICULTURAL GREENHOUSE GASES

LRG Annual Meeting, Berlin, Germany

24 October 2024

Livestock Research Group Annual Meeting

Richard Dewhurst, Sinead Leahy, Tommy Boland

- Introduction and overview: LRG Co-Chairs and GRA Special Representative
- Reports from LRG networks
- Flagship projects – current, planned and potential
- Science to policy (Science/Policy Working Group) – implementation; science-policy-practice nexus
- Partner updates – synergies and opportunities for LRG members to participate
- Work Plan for 2025

Practical

- Everybody 'gets their say' (within reason!)
- Work Plan for 2025

Things to consider

- Ways to accelerate implementation (science-policy-practice)
- New connections, project ideas, collaborations
- GRA network structure review - over the next year
- Inclusivity – Africa (opportunities leading up to GGAA 2025)

- Ongoing work of the LRG networks (engine room of the LRG) – connections, collaborative projects, workshops, webinars, newsletters.....
- Existing major global collaborative projects – HoloRuminant; Gas to Grass
- Two Flagships centred on LRG networks – feed additives; Rumen Gateway
- Roles in major new initiatives with the Global Methane Hub – animal breeding; animal health; others under discussion (e.g. rumen physiology scoping)
- Bilateral Ireland-New Zealand initiative continues strongly – 3rd call
- Technology partner for the Global Dairy Platform – Pathways to Dairy Net Zero programme
